

Curriculum Vitae:

VALERI A KORNEEV

Education:

Ph.D. 1987 Leningrad University Graduate School of Geophysics
M.S. 1978 Leningrad State University, Department of Physics

Research Career:

2000 - Present	Geological Staff Scientist, Lawrence Berkeley Laboratory, University of California, USA
1992-2000	Staff Scientist, Lawrence Berkeley Laboratory, University of California, USA
1991-1992	Research Associate, University of California, Berkeley, California, USA
1990-1991	Visiting Professor, University of California, Berkeley, California, USA
1986-1990	Senior Research Scientist, Physics Research Institute, Leningrad State University
1978-1985	Research Scientist, Physics Research Institute, Leningrad State University

Research Interests:

Computer modeling of elastic wave propagation in 2D and 3D for complex heterogeneous media. Designing seismic field experiments. Direct and inverse problems of seismic waves propagation. Propagation of seismic waves in waveguides. Propagation of elastic waves in the media with local heterogeneities. Development of algorithms and computer programs for seismic data processing. Seismic diffraction tomography. Theory of scattering and attenuation of seismic waves. Canonical diffraction problem for elastic sphere and its geophysical applications. Tube wave monitoring. Nonlinear theory of dynamic elasticity, elastic waves interaction. Seismic monitoring using powerful vibro-sources. Earthquake prediction. Seismic resonant emission: theory and applications.
